Eger and its Basilica

Eger is a city in Hungary. It's in the north-east of the country.

The city is famous, because in 1552 Hungarian soldiers defeated the Turkish army. Eger is well known first of all for its castle, a memory of the battle against Turks, then for its thermal baths and has got a lot of historical buildings, such as the Turkish minaret.

It is an important agricultural market and has got tobacco and wine industries. Very popular are its red wines. One of its most famous buildings is the Basilica. The cathedral is in Gothic style: outside there are two bell-towers and inside there is a big decorated dome.

THE VISIT OF THE CASTLE OF EGER

On 19th of April we went to Eger ,it's a small town near Felsotarkany. In the morning we went into a cave and we saw a 3D movie about the war . After lunch we visited the various rooms of the castle and we tried the typical clothes wore by the people who lived in the castle.

We also visited a museum explaining the war that took place in Hungary against the Turkish army.

In the afternoon we played medieval games in the courtyard of the Castle.

Linda and Sofia, Italy

Budapest

On Saturday, April 23rd, we went to Budapest, the capital city of Hungary.

In the morning we went to Buda to see the castle of Matias.

In the afternoon we went to Pest where we saw the Parliament and then we bought some clothes at the Hard Rock cafe.

Soon after we went to the airport to return to Italy. Bye bye Hungary!

Color Party

This is a party in which all the students involved in the European Patchwork showed their school to other groups. It was celebrated in the Community centre of Felsotarkany. The Spanish group illustrated their school in Mazarron and played a traditional Spanish dance. The Italian group showed their schools in Finale Emilia and Massa Finalese and played the Italian hymn with the recorder. The Hungarian group showed the school and other places around the town. Then, all together we sang a song "Alegrìa". There was some Hungarian food to eat and to drink, there was the Karkadé and apple and lemon juice. We also danced famous Disco songs. The name "color party" has an important meaning: the different colours represent the shadings of the different cultures of the European Patchwork.

Horse riding in Felsőtárkány

The students of the school LA ACEÑA went to Hungary. The fourth day of the travel we went horse riding. It was a great experience.

There were three horses and a pony. I rode the pony, but I was too tall for the pony. Then some girls played with me. I made a lot of friends.

It was great fun!

Bükk National Park

We went to the National Park by train directly into the forest. In the forest we walked on a very long road . When we arrived we played a football match : Spain vs Hungary. We lost the first match but we won the second. We liked the forest!

After that we went to see a small fish that hides under the rocks in a small river.

Ginés-Spain

The Demjén Thermal Spa

On Sunday we went to Damjen. At the SPA there were many things like a sauna with TV , chess tables in the water and what we liked most were the water slides. We really enjoyed the area water culture, because of the big contrast with the lack of water in Murcia, that is close to desertification.

Hungary is particularly rich in hot springs of unique importance in Europe , most of the waters are rich in dissolved minerals and they are suitable for healthy bathings.

Hortobagy National Park

When we went to the beautiful Hortobagy National Park we saw the acrobatic show of the horses. All the countries together : Spain ,Hungary and Italy. The horses were spectacular and when they finished we were amazed. After that we went on carriages pulled by horses.

In the Park we saw many interesting animals.
